

HSE Malnutrition Risk Management Pathway for Hospitalised Adults (adapted from NICE CG32)

Notes:

- Refer to local referral criteria to the dietitian for MST and MUST.
- Ask question 2 where patient has not already had a swallow assessment as part of treatment pathway.
- For appropriate diet, see HSE Food Nutrition and Hydration Policy algorithm – Appendix 14.
- See International Dysphagia Diet Standardisation Initiative (IDDSI) Framework – Appendix 15.
